SUMMARY

Passionate Frontend Developer with 3+ years of hands-on experience in React.js development, specializing in crafting high-performance, intuitive, and dynamic web applications. I have a strong command of JavaScript ES6 concepts, React Hooks, Redux, and modern frontend technologies, ensuring the delivery of responsive and optimized user interfaces. Adept at balancing user experience with performance, I focus on enhancing functionality, scalability, and efficiency. Currently employed as a Software Engineer at Grasko Solution.

WORK EXPERIENCE

Grasko Solution , Bangalore | Frontend Developer   **Sep 2021 - Present**

- Designed and developed modular, reusable components using React.js, including various features and functionalities for the project.
- Developed and maintained Client Creation, Client Profile, Scheduling, Referral In/Out, and Managing Custom Reports modules for the CBO (Clinical Back Office) application.
- Developed and maintained a secure Patient Portal application, concentrating on the frontend.
- Managed application state effectively using React's state and props systems, implementing stateful and stateless components appropriately for optimal performance.
- Integrated front-end components with back-end services and APIs, efficiently fetching and sending data using tools like the Fetch API and third-party libraries.
- Customized application themes using Material-UI's theming system, adjusting color schemes, typography, and other styling aspects to align with design requirements.
- Monitored application performance and implemented optimizations to enhance the overall user experience.
- Designed and implemented the Client Creator component, which allows users to efficiently input and manage comprehensive client data during the intake process.
- Created an advanced, reusable filter component for the client listing page, enhancing search functionality and enabling its application across multiple areas of the project for consistent and efficient data filtering.
- Implemented various utility functions to streamline application development, including Date formatting , Name formatting and Status color coding

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks/Libraries:** React.js, Redux , Material UI
- **Backend Technologies:** Node.js, Express.js, MongoDB
- **Other:** RESTful APIs, Git, Bitbucket, NPM, Postman, Data Structure, Problem Solving, Responsive Design, Cross-Browser Compatibility

ACADEMIC BACKGROUND   **Aug 2017 - Sep 2020**

Bachelor of Technology

Greater Noida Institute of Technology (AKTU)

Computer Science
Percentage: 69.9%

ACHIEVEMENTS & CERTIFICATIONS

Completed React Course on Udemy

- Acquired comprehensive knowledge and practical skills in React development.
- including advanced concepts, state management, component-based architecture, and modern best practices.
